Snowboarding

Children to Adults / Beginners to Advanced

Lessons with an AASI certified instructor help avoid some of the bumps and bruises of learning to board. Spend less time picking yourself up and more time having FUN!!! Our current techniques help reduce the frustrations of learning.

First Timers Are Our Specialty

Custom Groups

Create your own group of friends or family and learn together. We will work on the topic of your choice, at your pace and when YOU are available.

Video Analysis

We will "show" you what is happening on the snow. This program allows you to see it, feel it, and make it your own.

After spending time on the snow recording your progress, we will then meet indoors to review the results.

This program is available with or without a lesson. If you choose the option without a lesson, we will simply record your skiing or riding and then review the footage with you before making a copy for you to take home.

The choice is yours.
